Focused Intensive Care Echo

This will be the 4th annual **North Wales FICE** course, and this year we're offering a small number of places on our 2nd **FICE+** course: an additional day of supervised scanning. This day will get you ahead of the curve with the provision of 10 supervised and logged scans on real critical care patients.

Faculty: Experienced Consultants in Critical Care and Cardiology, Senior Physiologists

Programme Includes:

- Introduction to FICE and physics of ECHO
- LV, RV Function assessment
- Pericardial and Pleural Fluid Assessment
- Volume Assessment
- Basic Valve Pathology (beyond FICE)
- 3x Practical Stations with live models
- ECHO Simulator
- Review of Echo Images
- Medicolegal Aspects of FICE

Chest Ultrasound (CUSIC)

As an addition to our successful FICE courses, we are pleased to introduce our new CUSIC course which will be the first step to becoming an accredited CUSIC provider.

Faculty: Experienced Consultants in Critical Care, Radiology and Respiratory Medicine

Programme Includes:

- Introduction to CUSIC and physics of US
- Introduction Chest Ultrasound
